PROGRAMMING LANGUAGES

LIBRARIES/Frameworks

TOOLS / PLATFORMS

DATABASES

Python, JavaScript

React, Node.js, Express.js, Tailwind.css, EJS

Git, VS Code, Firebase, Postman

SQL, MongoDB

## PROJECTS / OPEN-SOURCE

AUTHORVERSE | [LINK](#)

HTML, CSS, JavaScript, Firebase

- In this project, I focused on the frontend development, ensuring full responsiveness and customization. I personally designed and tailored each aspect of the user interface, optimizing the overall user experience with attention to detail in every component.

CONVO APP | [LINK](#)

JavaScript, React.js, Node.js, Express.js, Tailwind.css

- In this project, I handled both frontend and backend development, focusing on responsiveness and ensuring seamless document conversion to PDF. The aim was to deliver a smooth user experience, optimizing performance and compatibility across various devices.

CHESS | [LINK](#)

EJS, Node.js, Express.js, Chess.js, Socket.io

- This Chess Game, inspired by Chess.com, enables players to compete in real-time matches while allowing spectators to watch live gameplay. The platform provides an interactive chess-playing experience with move validation and game state management.

EMPLOYEE MANAGEMENT SYSTEM | [LINK](#)

React.js, ES6, Tailwind.css

- A web-based platform using React.js and Tailwind CSS for task assignment, enabling admins to assign tasks seamlessly and employees to manage them via a user-friendly dashboard.
